## TECHNICAL SKILLS

---

- **Languages:** JavaScript (ES6+) | TypeScript | HTML5 | CSS3
- **Frameworks/Libraries:** React | Next.js (server-side rendering for SEO optimization) | Node.js (runtime environment for JavaScript, used in server-side development)
- **API Integration & Development:** RESTful APIs (design and implementation) | Third-Party APIs | GraphQL
- **Version Control & CI/CD:** Git (version control, branching strategies) | GitHub | GitLab CI/CD (automated testing and deployment pipelines)
- **Cloud & DevOps:** Firebase (hosting and real-time databases) | WordPress (custom theme and plugin development, site optimization, SEO strategies)
- **Design & Prototyping:** Figma (prototyping and UI design)
- **Testing:** Jest (unit testing) | Cypress (end-to-end testing)

## WORK EXPERIENCE

---

### Mojo Design

Frontend Developer, Contractor

Nicosia, Cyprus (Remote)

May 2024 – Present

- **Frontend and CMS Development:** Built and maintained dynamic, responsive websites using WordPress for content management and JavaScript for interactive elements.
- **Custom WordPress Solutions:** Developed custom themes and plugins; integrated Elementor for design enhancements, Security Optimizer for improved website security, and Jet Engine for advanced dynamic content management.
- **Core Functionality Maintenance:** Maintained and enhanced the core functionalities of client websites while implementing new features and improvements to enhance user experience and functionality.
- **Technical Troubleshooting:** Identified, troubleshooted, and resolved technical issues to ensure seamless operation and optimal website performance.
- **Client Collaboration:** Engaged closely with clients to understand their needs and delivered tailored web solutions, resulting in a 15% increase in client retention.
- **Website Maintenance:** Conducted regular updates and maintenance, optimizing performance and ensuring security.
- **Responsive Design:** Implemented responsive design principles to ensure cross-device compatibility, improving user experience.

### Frontend Simplified

Frontend Development Intern

(Remote)

March 2024 - August 2024

- **Interactive UI Development:** Transformed static applications into dynamic user interfaces using animations, transitions, and carousels.

- **API Integration:** Processed API requests with Axios to dynamically display data; implemented features like skeleton loading states, pagination, and dynamic routing.
- **Version Control:** Used Git and GitHub to collaborate in a remote team environment, practicing effective code versioning and management.

#### TimeBox

Frontend Developer

(Remote)

January 2024 - April 2024

- **Project Management:** Assisted in planning, development, and deployment using Agile methodologies to ensure on-time project delivery.
- **API Integration:** Integrated third-party APIs with React and Node.js, enhancing application functionality.
- **Code Quality and Testing:** Ensured high code quality and maintainability by conducting code reviews and writing unit tests (Jest) and end-to-end tests (Cypress).
- **Performance Optimization:** Diagnosed and resolved complex bugs, optimizing React application performance, resulting in a 20% efficiency improvement.
- **Version Control and Collaboration:** Leveraged Git and GitHub for effective version control and team collaboration throughout the project lifecycle.

## EDUCATION

---

#### Frontend Development Bootcamp

Frontend Simplified

(Remote)

#### Adelphi University

BSc Exercise Science  
December 2016

Garden City, NY

Graduation Date:
