## PROFESSIONAL SUMMARY

My journey from coaching to software development began with a hobby in website creation, where I discovered a deep passion for coding. This led me to complete an immersive bootcamp, equipping me with the technical expertise to transition into a developer role and apply my problem-solving skills to build impactful digital solutions.

## WORK EXPERIENCE

### Mojo Design

Frontend Developer, Contractor

Nicosia, Cyprus (Remote)

**May 2024 – Present**

- **Frontend and CMS Development:** Built and maintained dynamic, responsive websites using WordPress for content management and JavaScript for interactive elements.
- **Custom WordPress Solutions:** Developed custom themes and plugins; integrated Elementor for design enhancements, Security Optimizer for improved website security, and Jet Engine for advanced dynamic content management.
- **Website & Core Functionality Maintenance:** Maintained and enhanced core functionalities while conducting regular updates, implementing new features, optimizing performance, and ensuring security to improve user experience and overall site functionality.
- **Technical Troubleshooting:** Identified, troubleshooted, and resolved technical issues to ensure seamless operation and optimal website performance.
- **Client Collaboration:** Engaged closely with clients to understand their needs and delivered tailored web solutions, resulting in a 15% increase in client retention.
- **Responsive Design:** Implemented responsive design principles to ensure cross-device compatibility, improving user experience.

### Frontend Simplified

Frontend Developer Internship | [Certificate](#)

(Remote)

**March 2024 - August 2024**

- **Interactive UI Development:** Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions and carousels.
- **API Integration:** Processed API requests with Axios to dynamically display data; implemented features like skeleton loading states, pagination, and dynamic routing.
- **Team Synergy & Git Proficiency:** Implemented advanced Git workflows on GitHub to drive seamless collaboration, ensuring code quality and traceability throughout each phase of the project lifecycle.

### TimeBox

Frontend Developer

(Remote)

**January 2024 - April 2024**

- **Project Management:** Assisted in planning, development, and deployment using Agile methodologies to ensure on-time project delivery.
- **API Integration:** Integrated third-party APIs with Node.js, enhancing application functionality.
- **Code Quality and Testing:** Ensured high code quality and maintainability by conducting code reviews and writing unit tests (Jest) and end-to-end tests (Cypress).
- **Performance Optimization:** Diagnosed and resolved complex bugs, optimizing React application performance, resulting in a 20% efficiency improvement.
- **Version Control and Collaboration:** Leveraged Git and GitHub for effective version control and team collaboration throughout the project lifecycle.

## EDUCATION

### Frontend Simplified

Software Engineer Bootcamp

### Adelphi University

BSc Exercise Science

**August 2023 - August 2024**

Garden City, NY

**2012 - 2016**

## TECHNICAL SKILLS

- **Languages & Frameworks:** JavaScript (ES6+) | TypeScript | HTML5 | CSS3 | React | Next.js | Node.js
- **API Integration & Development:** RESTful APIs | Third-Party APIs | GraphQL
- **Tools & Technologies:** Firebase | Jest | Cypress | WordPress
